

Dear colleague,

The 9th edition of the

Nuclear Physics in Astrophysics

conference will take place September 15-20, 2019 at the [Castle Waldthausen](#), which is located close to Mainz, Germany about 50 km west of Frankfurt/Main.

We want to share some organizational details with you, which were not included in the [first circular](#).

Timeline

- March-5, 2019: abstract submission and pre-registration opens
<https://exp-astro.de/meetings/npa-2019/happly.php>
- March-10, 2019: 2. circular released
<https://exp-astro.de/meetings/npa-2019/hcircular.php>
- April-30, 2019: abstract submission and pre-registration closes**
- May-15, 2019: decisions about oral/poster contributions, corresponding emails to participants
- May-16, 2019: registration page opens (including payments, accomodation and travel details)
- May-16, 2019: 3. circular with details about the accomodation and social events
- June-30, 2019: Early-bird deadline**

We want to keep the spirit and tradition of former editions of the conference and will have no parallel sessions. **Each talk is a plenary talk!** The program will consist of about 20 invited and 40 contributed talks. The selection will be based on the recommendations of the International Advisory Committee (IAC) and the submitted abstracts.

All other contributions, which can not be presented orally, can be presented as poster in one of two dedicated poster sessions.

Proceedings

We plan to publish proceedings in the Journal of Physics Conference Series. More details will follow in the 3rd circular.

Satellite events

The conference will be preceded by the Summer School on Nuclear Physics in Astrophysics:

<https://exp-astro.de/meetings/npa-2019-school/>

accompanied by the ChETEC MC meeting and workshop

<http://www.chetec.eu/>

and followed by the 7th edition of the p-process workshop:
